Nominated by:

Natalie King and Nicole Tupper

Reason for Accepting Nomination:

Accepting the nomination of President-elect presents me with an opportunity for professional development. I would be honoured to participate in helping shape the future of such a rewarding profession. With the growing senior population and looming nursing shortage, planning is of the utmost importance. A focus on collaboration with external stakeholders and preserving professional standards must be at the forefront. Exploring ways to recruit new and internationally trained professionals while improving entrance to practice exam success are just a starting point.
