Nominated by:

Elizabeth Evans and Lisa Keirstead Johnson

Reason for Accepting Nomination:

While working at NANB (2008-2020), serving nursing colleagues was an honour. My work impacted all domains of nursing, in all areas of employment, including NPs. I want to serve with the board to ensure NANB is transparent, informed, proactive and rigorous when exploring the future of RNs and NPs with regards to provincial legislation, nursing regulation, education and clinical practice. I bring nursing experience from Acute and Community Care, Mental Health/Addictions, Education and Administration.
