

FAQs: IEN Registration Pathways

Mandatory Education Information

I am currently an RN, why am I being asked to take courses?

The purpose of additional courses and mandatory learning activities is to help you adapt to working as an RN in a new practice environment. There are many challenges associated with transitioning to working and living in a new country. NANB has partnered with NBCC and CCNB to help you transition from a professional perspective. The additional learning activities are to help you become familiar with the specific accountabilities to practicing as an RN in NB.

I have been told that I must complete NBCC or CCNB courses. How do I get started?

If you have been told that you must complete mandatory courses, these are required before you can receive your TRP. These courses are facilitated by NBCC and CCNB. Once NANB has referred you, you will be informed by email. NANB cannot provide comment on, or information related to start dates of courses, as they are facilitated by our partners at NBCC. Once your referral has been sent to NBCC, you will be contacted by NBCC regarding next steps.

How much do the courses cost and are the costs covered?

NANB cannot comment on the costs of courses, as they are delivered by our partners at NBCC. For the most up-to-date information related to courses, please visit: [NB CRIB Program \(nbcc.ca\)](http://nbcc.ca)

NANB does not cover any costs associated with applications or mandatory education. If you are an approved candidate of the IEN Navigation Service, the cost of the courses may be covered. Please contact the IEN Navigation Service Team for more information.

How long will the NBCC or CCNB courses take?

The length of courses depends on the number of courses you are required to take. These courses are delivered by NBCC and CCNB, and NANB cannot comment on or provide information related to specific course timelines or start dates. For more information related to your courses, please contact NBCC directly.

Will I receive a TRP while I am taking the mandatory courses?

No. You will receive your TRP after you have successfully completed your mandatory courses. For more information on the steps in your process, please review the [NANB Registration Requirements for IENs](#).
